

CUSTOMIZED CUTS FROM  
FLOOR TO CEILING

We offer custom millwork that can:

Fit the exact specifications of your project

Reveal a special grain

Customize profiles for any frame or moulding project

Customize stairs with balusters, posts and railings

Create made-to-order architectural columns and archways

Minimize waste

# Millwork

## FINE HARDWOODS DESERVE UNIQUE TREATMENTS

From stairways and ceiling rafters to base and crown mouldings, East Teak Fine Hardwoods, Inc. has the state-of-the-art German machinery and in-house capabilities to mill and deliver your custom woodworking needs.

## ENDLESS CAPABILITIES

East Teak provides a variety of custom millwork capabilities, including:

- *Surfacing* – We use both a conventional planer and a Weinig six-headed molder with carbide and steel blades to provide even, smoothly surfaced stock to a minimum 1/4 inch thickness.
- *Re-sawing* – This process allows us to prepare pieces of special dimension, but with minimum waste.
- *Straight-line rip* – This technique provides the finest-available working edge.
- *Gang rip* – Using this technique, East Teak provides evenly dimensioned widths to your exact specifications.
- *Surfaced four sides* – With our advanced equipment, we can provide you with wood that is stock-dressed on all four sides.

# Mouldings

## MOULDING THE PERFECT SPACE

From stairways and ceiling rafters to base shoe mouldings, East Teak has the in-house capabilities to mill and deliver your custom woodworking needs.

Choose from a wide array of standard mouldings in our most popular species, or make use of our custom moulding capabilities to enhance any hardwood floor surface. Also, we can create custom profiles for any detail work such as casings, panel mouldings, railings or crown mouldings, among others.

## CREATING A NEW LOOK WITH MOULDINGS

East Teak Fine Hardwoods can provide a range of mouldings for your project:

- a variety of standard mouldings in teak, kempas and merbau
- custom milling for mouldings to fit your exact specifications

For your next architecture project, our beautifully crafted posts and beams can be enhanced with our custom mouldings for your ceiling surfaces.

In addition, our custom moulding capabilities can also enhance any hardwood floor surface. Choose from any of the following:

- stair-nosing
- base mouldings
- base shoe mouldings

## MOULDING PROFILES CAN ADD DISTINCTION

*Using mouldings can help add value to your project and also showcase individual style in a unique way. Through the use of customized moulding profiles, you can help create an ideal look which enhances the architectural elegance and distinctiveness of any project.*
